ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:

No other wagon can match
Ford's features (or popularity!)

There's a whole wagonload of
reasons why more people are
buying Ford wagons than any
other make.

First, there's more room.
Ford's extended load deck is the
longest and widest in its field.
The tailgate opening is seven
inches wider than last year, too.

There's more convenience. You
can have an electrically con-
trolled roll-down rear window in
any Ford wagon... it's standard
in all Country Squires and 9-
Passenger Country Sedans. In
their field, only Ford wagons

have all seats facing forward.

There's more distinction. The
Country Squire (shown above)
is the one and only wagon in its
field with body panels that look
like mahogany, wear like steel.

There are more savings, too.
Ford's Ranch Wagon is America's
lowest-priced,* full-size wagon.
And like all Fords, every Ford
wagon is built to be more service-
free: goes 30,000 miles between
chassis lubrications, 4,000 miles
between oil changes, brakes ad-

just automatically, mufflers are
made to last three times as long
as ordinary mufflers, and the
finish never needs waxing.

STOP putting off that station
wagon you've always wanted.
SWAP for a '61 Ford wagon now
while your Ford Dealer's cele-
brating record-breaking sales.
SAVE with the wagon America
loves most... made by FORD.

specialists for 32 years!

DO NOT
SCRAMBLE

At the breakfast table, scrambled eggs can really hit
the spot. Scrambled financial affairs, though, are
something else again. That's why it is usually best to
make a sharp distinction between money you *invest*
and money you want to *save*—the money you want to
have immediately available under all circumstances.
Put your investments wherever you
think they will earn the best return. But
keep your *savings* where you know they
will always be accessible—in the bank.
